

Graduation will be different this year

Summer is approaching and so is graduation.

This year, graduation will be conducted in a different manner.

The final day of school before summer should of course be special. The staff at your school will keep you informed on exactly how graduation will be conducted this year. However, there will be no parents or relatives present due to the corona pandemic.

Cancelling the traditional way of graduation is one of several measures that the municipality has had to decide on in order to reduce the spread of infection in the community. All of us have a responsibility to protect the elderly and high-risk groups from the Corona virus. Therefore, we would also like to appeal to you to comply with the recommendations published by the authorities if you are planning to celebrate graduation on your own. Having a party with invited guests is very nice, but right now it is most inappropriate. In time there will be time to meet and celebrate.

As a parent, it is also important that you continue to follow the guidelines previously issued by the municipality. The only way to reduce the spread of infection is by taking responsibility - together. Thank you for everything you do to ensure this.

Guidelines for school and preschool

- Children with fever, cough and shortness of breath should stay at home.
- This also applies in case of milder symptoms, such as a mild cold or a sore throat.
- Children should be symptom-free for two days before returning to school after being ill at home.
- Children who are healthy are expected to school as usual, even if other family members are ill. Elementary school is compulsory.
